JAPANESE CEDAR POLLEN

I hereby certify that this correspondence is being deposited with the United States Postal Service as First Class Mail in an envelope addressed to the Commissioner of Patents and Trademarks, Washington, DC 20231 on 12/11/92

By:

Darlene Vanstone
Darlene A. Vanstone
Registration No. 35,729
Attorney for Applicants

AMENDMENT

Honorable Commissioner of Patents
and Trademarks
Washington, DC 20231

RECEIVED

DEC 17 1992

GROUP 180

Sir:

Prior to examination, please amend the above-identified case as follows.

In the Specification:

On page 29, after "inhibitors.", and before "The unbound...", please insert the following sentence:

--The sample was next applied to a 100 ml DEAE cellulose column (Whatman DE-52) equilibrated at 4°C with 50 mM Na-acetate, pH 5.0 with protease inhibitors.--

REMARKS

The specification has been amended to insert a step in Example 1 which was inadvertently omitted when the application was filed. Applicants submit that it is apparent that a step is missing as the following sentence discusses an unbound material and there is no preceding step stating how, and to what, the material becomes bound or unbound.
